These Air Curtains are Sleekest Air Curtains in the World

All Metallic Casing - High in fire resistance, compact in over-all construction, convenient in installation, easy for cleaning and maintenance.

Piano Type Buttons to control the High / Low Speed that can meet the need of various environments & door heights.

Reliable designed motor that can run 5000 hours continuously.

Multiple Installation Specifications - Body dimensions of 3/4/5 Feet

Variable Installation Heights - 7 to 9 Feet

Centrifugal Type Forward - Bending blade Wheel construction, fitted with efficient Volute design, rendering the capacity of the curtain for the best result. This type of wheel is high efficient, less noisy, with large air volume (maximum air speed reaching 18.8m/s), High velocity of this air curtain is unmatched by any other air curtain in the market.

Over Heating Protection - When motors temperature goes over the temperature (145°C) the power supply will be automatically cut off and when the motors temperature decline (below 145^{0}C) it will start running automatically.

Number of Motor & Blowers:

3 Feet Air curtain have 2 Motors & 3 Blowers
4 Feet Air curtain have 2 Motors & 4 Blowers
5 Feet Air curtain have 3 Motors & 5 Blowers
